Dear Diary

Greg, Henry, Tran

About us

- Our objective is to provide a safe place for our users to record their thoughts, feelings, and ideas without worrying about data security.

- Dear Diary shall provide a secure and insightful place to record personal data, reflect on them, and track events in the calendar based on that information.

Why?

- We are human
- Have a lot of emotions
- A lot of trust issues
- We want to build something that reflects what we need and what others can relate to
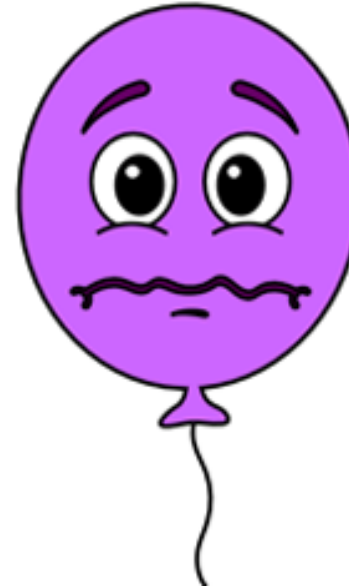

Happy   Sad   Angry   Surprised   Scared   Disgusted
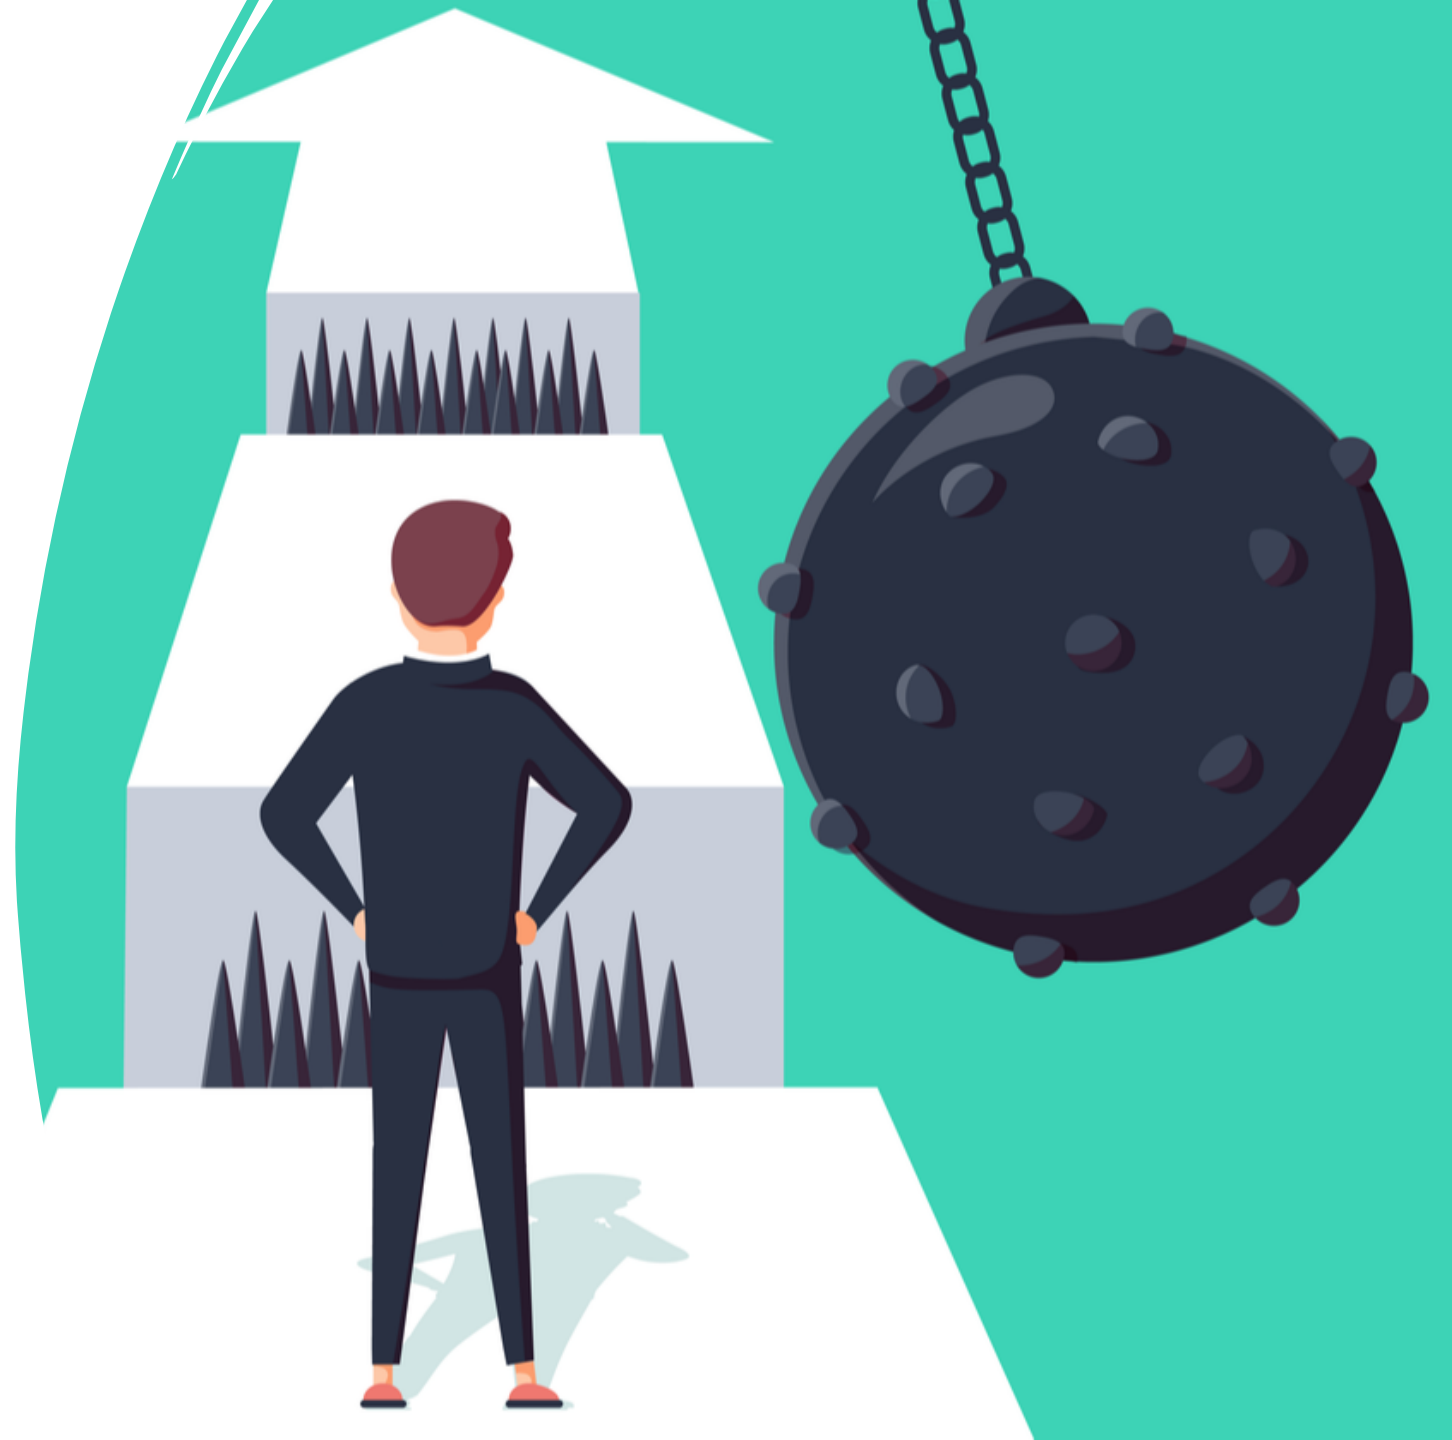

Key Features

- Journal entry recording

- Pictures/Camera

- Geolocation

- Maps

- Users Login/Authentication

- Calendar -> act as a filter

- Privacy

- Recording Status

LIVE DEMO

Challenges

- UTs with firebase
- Display the list of entries on the same screen as calendar
- Camera
- Refactoring due to authentication

Future Work

- More UTs coverage
- More features
- More refactoring
